## **REASONS FOR ALLOWANCE**

Claims 1-13 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant's statement that Matsumoto et al. was owned by and assigned to the same entity as the present invention overcomes the rejections of claims 1, 2, 5, and 8 over Matsumoto et al. As per independent claims 1, 3, 5, and 6, the prior art does not teach the combinations recited, and in particular wherein a sensor detects a discharge refrigerant pressure of the first compression element (i.e., intermediate pressure) and a control device detects reverse of the discharge refrigerant pressures of the first and second compression elements based on the sensed discharge refrigerant pressure of the first compression element.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
